

Grampians Central West Waste and Resource Recovery Implementation Plan

Consultation has concluded

The Grampians Central West Waste and Resource Recovery Group (Group) has finalised consultation on their draft regional implementation plan.

The Group consulted on the draft plan from 1 August to 2 September 2016 - thank you to all stakeholders that provided feedback. **About the draft plan**

The draft plan sets out the waste and resource recovery (recycling) infrastructure needs (facilities and equipment) of the Grampians Central West region for the next 10 years. The draft plan also looks at ways to minimise the environmental and public health impacts of waste while supporting a cost effective recycling system that reduces dependence on landfill.

About the Group

The Group is a statutory authority established under the *Environment Protection Act 1970*. The region includes the following councils:
