WASTE REDUCTION RESOURCES IN HEALTH CARE SECTOR

Hospital Waste Reduction Manuals

Health Care Waste Reduction Manual: Latest approaches to managing clinical and general waste: This provides full details for conducting a Waste Audit for Healthcare Facilities; Developing a waste management Plan for Healthcare Facilities; Model Waste Management Education Programs; Case Studies and industry contacts. **Cost \$50 includes postage and handling.**

Trim your waste line: A guide to managing waste in hospitals: Box Hill Hospital has developed a guide to managing waste in hospitals to assist other hospitals looking to introduce waste minimisation.

Case Studies

Ballarat Hospital: A program by Ballarat Health Services to seriously tackle waste issues has reduced its waste by more than half and saves the service at least \$19,000 annually

Box Hill Hospital: By rethinking its waste management practices Box Hill Hospital was able to reduce its waste disposal costs by over \$20,000 annually.

Other resources

Preferred packaging options which won't cost the earth - A message to manufacturers, suppliers & couriers of medical supplies from your customers
